FREE* WATERSHED EDUCATION PROGRAM

'STORM WATER POLLUTION PREVENTION ~ KEEPING SAN DIEGO BAY CLEAN'

A one-hour classroom program
for Grades 2, 5 & 6.

Using a fun, hands-on, interactive model
students will learn:

- The definition of a watershed
- How creeks, rivers, San Diego Bay, and the ocean become polluted
- How to prevent water pollution, and keep our waterways clean!

* To receive this program for **free**, teachers must administer a short pre-test to their students prior to the program, which will be mailed to you when you register.

The following CA Science Standards are addressed:

- Grade 2—Earth Sciences, Investigation & Experimentation
- Grade 5—Earth Sciences, Investigation & Experimentation
- Grade 6—Shaping Earth's Surface, Resources, Investigation & Experimentation
